DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1, 8 and 16 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Sato et al. (US Patent 6,331,965).

Regarding claims 1 and 16, Sato et al. disclose an accessory unit for alerting a user of an incoming call received by an associated wireless communication device, the accessory unit comprising:

a coupler configured to couple the accessory unit to a wristwatch (see col.21 lines 20-25);

a wireless communication circuit configured to wirelessly receive information from the wireless communication device (see col.15 lines 1-4); and

an alerting device configured to signal the user when a call is received by the wireless communication device (see col.15 lines 11-15).

an alerting device configured to signal the user when a call is received by the wireless communication device (see col.4 lines 41-51), the alerting device including a display that is separate from the wristwatch (see col.14 lines 56-60).

Art Unit: 2618

Regarding claim 8, Eichstaedt et al. disclose an incoming call alert system comprising: a wireless communication device (see col.15 lines 1-4), wherein the wireless communication device includes a primary wireless communication circuit (see fig.15, element 1) and a secondary wireless communication circuit (see fig.15, element 111); and an accessory unit configured to alert a user of an incoming call at the primary wireless communication circuit of the wireless communication device (see col.4 lines 41-51), wherein the accessory unit includes: a coupler configured to couple the accessory unit to a wristwatch (see col.21 lines 20-25); a wireless communication circuit wirelessly coupled to the secondary wireless communication circuit of the wireless communication device (see fig.15); and an alerting device configured to signal a user when a call is being received by the primary wireless communication circuit of the wireless communication device ((see col.4 lines 41-51), the alerting device including a display that is separate from the wristwatch (see col.14 lines 56-60).

Regarding claims 2 and 9,Sato et al. disclose the display permits the user to see the face of the wristwatch (see col.4 lines 11-16).

Regarding claims 3 and 10, Sato et al. disclose the display is generally planar, and the display covers and is generally parallel to the face of the wristwatch when the accessory unit is coupled to the wristwatch (see fig.2A).

Regarding claims 6, 13, 15 and 18, Sato et al. disclose identify the source of the call (see col.8 lines 16-24).

Regarding claims 4 and 11, Sato et al. disclose the display is a liquid crystal display (see col.8 lines 44-45).

Art Unit: 2618

Regarding claims 5, 12 and 19, Sato et al. disclose the alerting device includes a speaker (see 130, fig.4B)

Regarding claims 7 and 14, Sato et al. disclose the accessory unit includes a printed circuit board (see fig.4A, printed circuit board is inherent).

Regarding claim 20, Sato et al. disclose a user can read the time from the wristwatch when the accessory unit is coupled to the wristwatch (see col.8 lines 36-37).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed Tu Nguyen whose telephone number is 571-272-7883.
